DEVELOPMENT FAIR

MOUNTAIN PLANET THE WORLD'S SHOW FOR MOUNTAIN DEVELOPMENT APRIL 18-20, 2018 | ALPEXPO IN GRENOBLE, FRANCE

All international mountain professionals are invited to discover the latest innovations, and development and operations of ski resorts around the world. This is the time to compare all views and expertise, and to discover the latest products and services in terms of ski lifts, runway preparation, safety, software, and numerous services. Mountain Planet will unveil the latest trends and continue to take place at Alpeexpo in Grenoble, France, the heart of the French Alps.

The 3 days will have organized conferences, workshops, B2B meetings, award ceremonies, and all partners and major players in the market, notably Domaines Skiables de France (DSF) and the National Association of Elected Officers of the Mountain (ANEM). The detailed program will soon be available on Mountain-Planet.com.

In celebration of the 50th Anniversary of the Winter Olympic Games in Grenoble, Mountain Planet will close the festivities organized by the City of Grenoble over several months, notably during Gala evening scheduled for April 18, 2018.

Mountain Planet

Created in 1974 in Grenoble, Mountain Planet is the world's largest show in mountain management and the (ski) industry. It allows industry professionals to unveil innovations and latest trends / technologies to make the mountain last (year-round) in the summer and winter. Mountain Planet welcomes more than 900 exhibitors and international brands from more than 30 countries. The exhibition area is 42,000m and close to 20,000 international trade visitors come to each edition. More Info: mountain-planet.com
